Extended Battery
for KDC1000/1100 SmartSled®

MORE Power in the Palm of Your Hand

Whether you're scanning in the field, a warehouse, or on a store floor, a low battery indication immediately results in lost productivity. The Extended Battery Companion helps ensure your battery indicator stays full through the longest shift.

Extended Battery
for KDC1000/1100 SmartSled®

Extra Battery Life

You won't have to worry about charging batteries between shifts or during extended periods. With the Extended Battery companion offering an additional 2000mAh capacity, you'll stay powered throughout the entire day on just one charge.

Rechargeable

Both the host device's battery and the Extended Battery Companion contain rechargeable batteries that charge simultaneously when connected to USB-C power or KOAMTAC Charging Cradles. Charging options include 1-Slot, 2-Slot, and 10-Slot Charging Cradles.

LED Indicators

Eliminating the guesswork, easy-to-see LED indicators located on the back of the battery let you know the status of your extended battery with a quick glance.

Interchangeable

The Extended Battery companion and the Pistol Grip companion seamlessly interchange with each other. Maximize mobility on the store floor with the Extended Battery, while enhancing warehouse efficiency with the Pistol Grip.

Comfortable in Your Hand

The Extended Battery companion was designed to ensure maximum comfortability in your hand. The slim profile and light weight keep the full sled from feeling bulky even with the extra battery capacity. Additionally, a robust and adjustable elastic strap directly attached to the battery helps prevent accidental drops.

Extended Battery Companion Details

Battery Specs
Capacity: 2,000mAh
DC Input & Output: 5V, 1A (Input) / 0.5A (Output)

Physical Dimensions
(without KDC)
2.36" x 3.03" x 0.47"
