Scan and Charge Galaxy Tab Active5

Data Collection & Charging Solutions for Galaxy Tab Active5

Maximize efficiency while minimizing the costs of auto-identification systems with the Tab Active5 SmartSled. Create the perfect Tab Active5 solution with a breadth of available accessories including batteries, charging cradles, and more.

Powered

Reduce operational disruptions due to dead batteries with our range of charging solutions, including 1-slot and 5-slot 15W fast-charging tablet cradles and more. KOAMTAC offers a variety of cradles tailored to meet your charging requirements.

Designed

The Tab Active5 can integrate seamlessly with a KDC480/485 SmartSled Scanner using a dedicated SmartSled Case, enabling efficient barcode capture and compatibility for an array of SmartSled companions. The SmartSled Case for Tab Active5 features two dedicated scan buttons, a hand strap, and pogo pins for charging in SmartSled charging cradles.

Equipped

Available with a 1D Laser, 1D CCD, or 2D Imager scan engine, the KDC SmartSled is able to read all major symbologies. The KDC SmartSled allows for several enhancements including HF and UHF readers, a 2000mAh extended battery, an ergonomic pistol grip, mPOS, and mag stripe/IC readers—expanding the many ways you can collect data with your Galaxy Tab Active5.

Rugged

The KDC SmartSled is IP65-rated and has a 5' drop spec. This means the device is dust tight and water-resistant—ideal for any environment. Combine the KDC with the Galaxy Tab Active5 SmartSled Case, which is also built to handle a 5' drop, to create a rugged sled scanning tablet solution.

Connected

The KDC SmartSled and Galaxy Tab Active5 connect via Bluetooth® Low Energy 5.0. KDC companions can be connected the tablet via USB OTG cable if preferred.

KTSync® software with keyboard wedging, application generation, database lookup, inventory management, and KDC configuration features is included for Android devices. Complementary SDK and technical support from top engineers and the development team ensure ease of data collection in any situation.
