## Mount to Any Car or Truck

The Car Cradle utilizes a Zirkona™ suction-based mount from Gamber-Johnson, ensuring a sturdy grip for secure mounting on your vehicle's windshield or dashboard. With adjustable angles and compatibility with various vehicles, this solution guarantees movement, flexibility, and customization to fulfill your unique mounting requirements.

## Easy Forklift Mounting

The Forklift Cradle utilizes a Gamber-Johnson diamond-shaped mounting bracket and joiner, providing versatile mounting options on a forklift's overhead guard or guard legs (rectangular and roll-formed). Engineered with an adaptable and lightweight design, it ensures optimal performance in demanding material handling environments. Installation is seamless, requiring no drilling for added convenience.

## Charge On-the-Go

With USB 15W fast charging or external 12V charging (Forklift Cradle) capabilities, our Car & Forklift Mount Charging Cradles enable simultaneous charging for both the KDC1000/1100 and your smartphone. Enhanced security features include temperature detection, waterspout, and Adaptive Charging, ensuring optimal performance and safety. Charge conveniently via pogo pins or USB Type-C.
