Charging Cradles for KDC185

Streamline Your Charging Experience

Embrace clutter-free workspaces and streamline the charging process for your KDC185 scanners with charging cradles, made for convenience and efficiency.

Easy-to-use

Keep your workforce powered up and ready to tackle any task with this compact and user-friendly charging solution. Our charging cradles are a fast and simple method to charge your scanners. To charge, simply place the KDC185 into the cradle. KDC185 charging cradles utilize pogo pins for optimal charging of your devices and batteries without worrying about wear and tear on your device's port. Spacers (sold separately) are used to charge the KDC185 without the need to remove Ring Triggers.

2-Slot Charging Cradle

Efficiency meets simplicity with our 2-slot charging cradle for the KDC185. Say goodbye to the hassle of individual charging, as this sleek cradle simultaneously charges two KDC185 scanners and two spare KDC185 batteries.

10-Slot Charging Cradle

For businesses on the move, our 10-slot charging cradle is the ultimate power hub for your KDC185 fleet. Consolidate your charging process and save time with this high-capacity solution that charges up to ten KDC185 scanners and ten spare batteries. Designed with efficiency and security in mind, the 10-slot cradle ensures all devices are charged safely and reliably, making it an essential asset for large-scale operations.

Charging Cradle Details
