## Scan and Charge Galaxy Tab Active3

Powered ▶ Rugged ▶ Designed ▶ Connected ▶ Equipped

Maximize efficiency while minimizing the costs of auto-identification systems with the Galaxy Tab Active3 SmartSled. Create the perfect Tab Active3 solution with a breadth of available accessories including batteries, charging cradles, and more.

### Powered

Minimize operation interruptions caused by power outages with an array of charging products including 5-slot battery chargers, 5-slot 15W fast tablet chargers, and a DeX station. Additionally, advanced power management of the KDC SmartSled® puts the scanner in “hibernation mode” when not actively in use, allowing the battery to outlast an average work shift.

### Rugged

The KDC SmartSled is IP65-rated and has a 5' drop spec. This means the device is dust tight and water resistant; it's ideal for any environment.

### Designed

The KDC SmartSled attaches to the Galaxy Tab Active3 SmartSled to create a sled scanning solution. This unique modular design allows you to upgrade your smart device without worrying about replacing the entire barcode/RFID solution.

### Connected

The DeX station allows you to connect your Tab Active3 directly to a monitor via HDMI port, a network via an Ethernet port, and up four USB peripherals via conveniently placed USB ports. While the KDC SmartSled and tablet are connected by Bluetooth®, KDC companions can be connected the tablet via OTG cable if preferred.

### Equipped

Available with a 1D Laser or 2D Imager scan engine, the KDC SmartSled is able to read all major symbologies. The KDC SmartSled allows for several enhancements including RFID, extended battery, and pistol grip companions - expanding the many ways you can collect data with your Galaxy Tab Active3.

KTSync® software with keyboard wedging, application generation, database look up, inventory management, and KDC configuration features is included for Android and Windows devices. Complementary SDK and technical support from top engineers and the development team ensure ease of data collection in any situation.
