

## Ideal Industries for Hands-Free Auto-ID

► **Warehouse** ► **Field Services** ► **Retail** ► **Transportation and Logistics** ► **Agriculture**

- **Warehouse:** Moving, tracking, and storing huge volumes of inventory quickly is difficult with a bulky in-hand scanner. The KDC is rugged and these accessories reduce accidental drops.
- **Field Services:** Stay up-to-date on progress while your technician is in the field delivering quality customer service and ensuring success without a bulky scanner to carry.
- **Retail:** Retail employees on the floor need quick access to product information while juggling customer service and inventory management - they don't need another object in their hands!
- **Transportation and Logistics:** Manage couriers, packages, deliveries and shipments worldwide with versatility and ease.
- **Agriculture:** Increase your team's speed picking, tracking, and sorting in any weather while collecting real-time data.
