

KOAMTAC Charging Cradles

for XCover6 Pro Smartcase

Charging Options for the Galaxy XCover6 Pro with Smartcase

Using a Smartcase? KOAMTAC designed charging solutions specifically for the XCover6 Pro Smartcase. The cradles can be assembled in many configurations depending on your unique needs, such as additional charging slots for Extended Batteries or more device slots.

Convenient

XCover6 Pro Charging Cradles support Adaptive Fast Charging (AFC) and ability to charge via USB Type-C or DC connector. Cradles can be configured in a multitude of ways. Options include slots for spare Extended Batteries or additional XCover6 Pro phones (with or without Smartcase Belt Clip). All Cradles charge devices/batteries simultaneously regardless of configuration.

Secure

All devices fit securely into the cradle ensuring a stable charging environment—avoiding accidental damage while charging. Additionally, all charging is accomplished via pogo pins, which means less wear-and-tear on device ports.

Upgradable

If your business upgrades to SKX6Pro SmartSled scanners for data collection, your XCover6 Charging Cradles can be upgraded to support the sled solution.

Cradles compatible with the Smartcase are also available in models for XCover6 Pro (without Smartcase) and spare XCover batteries.

Charging Cradle Details

LED Indicator

Green: Fully charged

Orange: Charging

Blinking Orange: Power is supplied to the cradle

Blinking Red: Charging issues

Dimensions

1/2-slot: 3.9" x 4.7" x 2.5" (100 mm x 120 mm x 64 mm)
